SOME OF OUR PROJECTS

Ensuring the coordination of all related parties and guaranteeing the synchronization of all customers' operational requirements are key to the success of each Industrial Project. **RANDY LOGISTICS** proposes tailor-made solutions in the following sectors:

Technology

For years, our experts have been pioneering innovative solutions to meet the special demands of hi-tech logistics, including speed to market and the flexibility to meet ever-changing consumer demand.

Food and Beverages

Our food industry logistics specialists can use their expertise to help companies enter new markets, or exploit existing ones more effectively.

SOME OF OUR PROJECTS

Automotive

Our experts in each global region will work with our clients to provide tailor-made solutions to meet any specific needs and requirements. RANDY Logistics offers world-wide, entire supply chain solutions including inbound procurement, production logistics, service parts distribution, and finished vehicle transportation

Aerospace

Over the years, Randy Logistics has become an important player in the global aerospace supply chain, streamlining the flow of parts, developing relationships with component vendors, and providing comprehensive AOG services

SOME OF OUR PROJECTS

Retail

Our dedicated retail team provides our customers with tailored solutions and processes to fit their specific customer and product requirements. This enables our customers to maintain a cost-efficient supply chain whilst ensuring their inventory arrives on time in full where it needs to be, and without the need to run high risk-averse stock levels close to their points of sale.

Healthcare

Randy Logistics has invested heavily over the past 10 years in developing specialist new services and resources in global healthcare supply chain. That's why we can bring you so much extra value, allowing your supply chain to deliver strategic competitive advantage rather than simply being an unavoidable operational cost.
